Education

2018 – 2021 / South Africa. KZN

University of KwaZulu Natal– Mandela School of Medicine

Started in 2018 where I studied for a bachelors degree in clinical health(MBCHCB). I dropped out in my fourth year in July 2021.

2019 – present / Online.

Udemy, Design and JavaScript course under instructor Jonas Schmedtmann

I came across this instructor while learning HTML and CSS, He taught me high level HTML, CSS and Sass, Fast-forward 3 months later we bought a JavaScript course from him and it was packed with everything from basics to high level JavaScript(DOM manipulation, Arrays, OOP, APIs, High Order functions etc.

Even I never went for a CS degree this course alone have put in a position where I have enough knowledge to be a junior front-end engineer.

Skills

Programming languages

JavaScript (ES6) ,HTML5 ,CSS3
Sass

Tools and platform

Git, Netlify, Shopify

Design

Figma, GIMP, Inkscape

Projects

Budgety

It's a income-expense calculating webapp. It based on functions. Build under Jonas Supervision
