## Profile

Passionate front-end developer. I have a deep love for JavaScript. I enjoy website development. I was fortunate enough to learn UI/UX design as well and that has put me in a position to be a website designer as well.

I build things for the web. I am energetic, optimistic, and outgoing. I I am genuinely interested in people

## Employment History

## Education

### MBCHB, ukzn, Durban

FEBRUARY 2018 — JUNE 2021

I was accepted to study medicine at the University of KwaZulu Natal School of Medicine back in 2017. I started studying in 2018 towards my MBCHB. In my fourth year, I dropped out to pursue computer programming.

### certificate, Udemy, online

JUNE 2018 — PRESENT

In 2018 mid-year I came along Udemy instructor by the name of Jonas Schmedtmann. He taught me high-level HTML5, CSS3, and SASS. Fast forward 3 months later I bought his JavaScript course. I never regretted my decision. It was packed with JavaScript from basic to advance stuff like e.g DOM manipulation, OOP, Functional programming, Array methods, etc.
